

Mary Verrandeaux – Fine Artist

Website: <https://www.maryverrandeaux.com/>

My art represents my ability to be creative, diverse, and experimental. From children's book illustrations to photo-realistic portraits, landscape paintings or abstracts, I am constantly experimenting and pushing my art to the next level.

I have been an artist ever since I can remember, drawing and creating my entire life. After graduating with honors from Ringling College of Art & Design in 1983, I founded Verrandeaux Visual Communications, an international advertising agency to which I dedicated a fast-paced and fruitful 21 years. With the help of my husband, Bob, the business grew and eventually employed 13 artists with international and domestic clients. In 2008 I sold the business to focus on fine art, portraits, commissions, and landscapes.

I have also illustrated children's books and numerous book covers. I was selected as a cover artist for the Hampton Classic, countless horse show covers and posters for the Classic Company. I painted several "horse fever" life-sized fiberglass horses for charity, designed the Florida State horse license plate and won numerous awards for my work in the arts. I continue to work and accept commissions as a fine artist.
