Program Overview

The Citizen Assistance Program (CAP) is for citizens that do not live in assisted living, nursing homes or have relatives that are not able to visit them every day. This program would enable the people of Simpsonville to feel safe in their own homes while giving them the luxury of living alone. Family members or other concerned people can give us the proper information and a police officer will check in with that person on a weekly basis either by phone or in-person.

Get Involved

Our community programs, like the CAP program, are made possible through the generous donations of citizens and local businesses like you. Check out our **Programs & Resources** page of our website to learn more about donating to the Simpsonville Police Department Foundation.

Community United

The Simpsonville Police Department (SPD) developed the Citizens Assistance Program (CAP) to help our seniors continue to live independent and sustainable lifestyles. The SPD partners with the following organizations to help us provide the best possible service to our community:

Meals on Wheels role is to help identify potential people that could benefit from this program

The USPS will advise the police department if they see a pattern of mail piling up for anyone so that we can check on them.

Senior Helpers has provided training to SPD Officers in identifying and dealing with persons suffering from Alzheimer's and/or dementia.
